

การวินิจฉัยโรค *

- Normal Eye
- Blind Eye
- Atrophic Eye / Post Enucleation
- Corneal Scar
- Corneal Ulcer
 - Fungal corneal ulcer
 - Bacterial corneal ulcer
 - Viral corneal ulcer
 - Parasitic corneal ulcer
 - Atypical corneal ulcer
 - Mixed infection
 - Non - specify
- Non-infectious ulcerative keratitis or perforation
- Fuchs' endothelial corneal dystrophy
- Pseudophakic and Aphakic bullous keratopathy
 - Pseudophakic bullous keratopathy
 - Aphakic bullous keratopathy
- Other causes of corneal edema (Please Specify)
- Other degenerations or dystrophies (Please Specify)
- Graft failure
 - Primary graft failure
 - Graft rejection
 - Endothelial failure
 - Other (Please Specify)
- Congenital
 - ICE syndrome
 - Peters' anomaly
 - AR syndrome
 - Congenital glaucoma
 - Limbal dermoid
 - Sclerocornea
 - Metabolic disorder with corneal change
 - Other (Please Specify)

การวินิจฉัยโรค *

- Corneal ectasia
 - Keratoconus
 - Keratoglobus
 - Pellucid marginal degeneration
 - Other (Please Specify)
- Inflammatory/Post. inflammatory keratitis
 - Herpes simplex keratitis
 - Herpes zoster keratitis
 - CMV keratitis
 - Other (Please Specify)
- Burn
 - Chemical burn
 - Thermal burn
- Limbal stem cell deficiency
 - SJS
 - OCP
 - Other (Please Specify)
- Other
 - Corneal deposits (such as siderosis bulbi/band keratopathy/lipid keratopathy/blood stained cornea)
 - Corneal opacity (such as haze after PRK)
 - S/P tectonic graft
 - S/P gluing
 - Other (Please Specify)
